

ClearChoice Dental Implant Center® Introduces "Insurance Assurance" Program To Help Patients Reduce Out-Of-Pocket Implant Costs

Patients with dental insurance may receive up to \$5,000 in savings on double fixed full arch dental implants

DENVER, Nov. 18, 2025 /PRNewswire/ -- [ClearChoice Dental Implant Center](#) today announced the launch of **Insurance Assurance**¹, a new program offering **up to \$5,000 in savings** for eligible patients beginning double fixed full arch dental implant treatment. Patients who present a valid dental insurance card may receive **up to \$2,500 per arch** on qualifying procedures.

The program was developed to help patients better manage the growing financial pressures associated with dental implant care. With many households facing rising healthcare costs, Insurance Assurance provides a clearer, more predictable path to restoring long-term oral health.

"Dental implants are more than a procedure — they are a turning point in a patient's life," said **Rahma Samow, President and CEO of ClearChoice Management Services, Inc.** "The Insurance Assurance program removes a major barrier at a moment when people need support the most. When combined with pre-tax FSA or HSA funds, the possibilities expand dramatically. Our mission is to make high-quality, long-lasting care accessible today — not someday."

ClearChoice is also encouraging patients to review their **FSA** or **HSA** balances before year-end, as these pre-tax funds can often be applied toward eligible implant treatment, further reducing out-of-pocket costs.
