CLEARCHOICE DENTAL IMPLANT CENTER OPENS IN ROCHESTER, BRINGING FULL-ARCH DENTAL IMPLANT CARE TO MONROE COUNTY

New Center at 350 E. Henrietta Rd. Offers a Personalized, Comprehensive Approach to Tooth Replacement for Patients Across Western New York

CHICAGO, Nov. 4, 2026 /PRNewswire/ -- Today, ClearChoice Dental Implant Center® opened its new Rochester location at 350 E. Henrietta Rd., welcoming patients from Monroe County, surrounding Finger Lakes, and Western New York communities. Led by Dr. Hrant Kavoukdjian, ClearChoice Rochester brings together a highly specialized team of prosthodontists, oral surgeons, and an on-site lab all under one roof, giving patients with missing, damaged, or failing teeth a single place to move seamlessly from consultation to treatment and maintenance.

The new center is located at the intersection of East Henrietta and Westfall Rd., near Monroe Community Hospital, Costco, REI and the University of Rochester Medicine Pain Treatment Center, making it convenient and accessible for patients across the Rochester area. Residents experiencing tooth loss or pain are encouraged to schedule a free consultation to learn about the treatment options and third-party financing options available.

"Rochester is a community that values showing up for one another, and I want every patient who walks through our doors to feel that same care and compassion from this team," said Dr. Kavoukdjian. "Many patients experiencing tooth loss have spent years hiding their smile, avoiding their favorite foods, or putting off care. A new smile can change how they eat, speak and show up for the people they love. I'm proud to build these relationships here in Rochester, and our team is committed to being a trusted partner in our patients' oral health for years to come."

Adults 65 and older make up about 21 percent of Monroe County's population, according to theU.S. Census Bureau. Nationally, 26 percent of adults 65 and older have eight or fewer teeth, and about 15 percent have lost all of their teeth, according to the Centers for Disease Control and Prevention. Severe tooth loss can make it harder to eat meats, fruits and vegetables, and to maintain a healthy diet.

"Tooth loss is far more than a cosmetic issue. It is a health issue that touches nearly every part of a person's daily life," said Dr. Arwinder Judge, chief clinical officer, dental, at TAG – The Aspen Group. "Patients in the Rochester community deserve access to comprehensive implant care from a team they trust, without having to travel far from home. This new center brings the expertise, technology and support patients need together under one roof, helping more people move forward with confidence."

Offering A Personalized Approach To Dental Implant Treatment

ClearChoice Rochester prides itself on offering a wide spectrum of teeth replacement solutions and same-day smile transformations to fit patients' dental needs, lifestyle, and budget. Several third-party financing options are available to make teeth replacement more accessible to more people, and the center team works with patients to find viable solutions. Further, the center offers a free, zero-deposit consultation to anyone experiencing tooth loss or pain, making it easier for patients to take the first step toward a restored smile.

Dr. Kavoukdjian and his team take a personalized and empathetic approach to treating patients who come through the doors. From the smile design process to ensuring proper healing, dental fit and function, each patient receives a treatment plan that is customized specifically to their needs. The center's technology and digital design process results in fewer appointments, better fit and more comfort for patients.

Over 20 years ago, ClearChoice pioneered the model for bringing the entire dental implant treatment process under one roof, with one highly specialized team of prosthodontists, oral surgeons and an on-site lab, for one fixed cost, making this procedure more accessible, efficient, and seamless for patients. Today, ClearChoice aspires to be the Platform of Hope for edentulous patients and those suffering from acute oral disease. The transformative work carried out in ClearChoice Dental Implant Centers across the country is helping change patients' lives and restore their confidence. With the opening of the Rochester center, ClearChoice takes another meaningful step toward its goal of changing one million lives by 2030, one smile at a time.
